Using technology in the classroom to enhance the learning experience is becoming more prominent in classrooms. Students are exposed to technology throughout the school day and need to be familiar with it to keep up with our changing world. It is important for students to focus on continued development of social skills while they are with us so Peninsula does not allow the use of personal electronic devices (phones, iPads etc) during program hours for video games or texting. Students may read books on a Kindle or other device if they have it.

We show short educational videos in the classroom sometimes during group activity time. The purpose of these would be to enhance a lesson/ activity and would never be the only part of the activity. You can see the posted lesson plans in the classroom to know when we are showing videos and you can request a link to any videos before they are shown.

We may also show a G rated movie during a party or special event. If we are showing a movie at a party, it will be posted 2 weeks prior and students always have the option to do something else (like read or color, etc.) instead of watching a movie.

Please initial and sign below.

____ I understand that short videos might be used during the summer program to enhance and activity.

____ I understand that my child might sometimes listen to a recorded story at Peninsula.

____ It is okay for my child to watch G rated movies during special events or parties.

____ I prefer that my child not have any screen time when they are at Peninsula.

Child(ren)'s name(s) _____
